“Oracle is an important partner, whose tools provide reliability and safety. Since we have to strictly comply with deadlines, Oracle’s Primavera P6 application is fundamental to our election projects.” – Paulo Dionísio Fernandes, Elections Coordinator, Tribunal Regional Eleitoral de Santa Catarina

Tribunal Regional Eleitoral de Santa Catarina Improves Elections Organization with Project Management Tool

Tribunal Regional Eleitoral de Santa Catarina (TRE-SC) solves election-related conflicts and maintains voter records for Santa Catarina. It also organizes and operates polls for federal, state, and local elections. TRE-SC manages operations for 104 election registers across the state.

Challenges

- Standardize head office project management tools for TRE-SC’s 104 election registers
- Increase security for activities and process management in the voting process
- Set up a highly detailed schedule to share election planning with the court secretary and determine election zones to streamline information between institutions, improving election organization
- Register all technical and administrative procedures, so Court staff can identify the status activities under their responsibility

Solution

- Worked with Oracle Partner Verano Engenharia e Sistemas to implement Oracle’s Primavera P6 solutions to create a unified project management environment for registration and voting activities
- Used Primavera P6 Professional Project Management in TRESC and in all 104 election zones to register procedures associated with organizing elections and associated deadlines
- Managed IT projects to develop software, especially for the planning, setting deadlines, and follow up of activities
- Started controlling all the election’s activities performed by the Court staff, offering a systemic visibility of the elections procedures, such as staff and equipments allocation, materials and trainings
- Anticipated several steps when organizing elections to better align budgets with requirements, optimizing resources and avoiding overburdened the staff
